Manager's Investment Report

Investment Objective and Policy

The investment objective of this Trust is to secure capital growth from a portfolio of securities of companies engaged in Information Technology.

Securities representing all such companies in the FTSE World Index will normally be held with weightings generally proportionate to their market capitalisation.

From time to time, non-Index constituents may be held as a result of a corporate action and these holdings will be sold or transferred as soon as reasonably practical.

The Trust may hold derivatives for the purpose of Efficient Portfolio Management.

Manager's Investment Report

During the year under review, the bid price of the Trust's R-Class accumulation units rose by 29.99%. FTSE, the Index compiler, calculates the benchmark Index at the end of the business day using closing prices, whereas the Trust is valued using prevailing prices at 3pm. Therefore, for tracking purposes the Trust has been revalued using closing prices and foreign exchange rates. On this basis, over the review year, the Trust rose by 30.48% on a capital only basis, compared to the Sterling capital return of the FTSE World Technology Index of 29.78% (Source: Bloomberg), producing a tracking difference of 0.70%.

Past performance is not a guide to future performance.

The value of investments and any income from them may go down as well as up.

Exchange rate changes may cause the value of any overseas investments to rise or fall.

The FTSE World Index is calculated by FTSE International Limited ("FTSE"). FTSE does not sponsor, endorse or promote this product.

Market/Economic Review

The global economic background has improved over the past twelve months, led by solid growth in the major developed economies, although recent indicators suggest there has been some loss of momentum, particularly in Europe. Despite a rise in commodity prices, with the oil price (Brent crude) recovering to \$79 per barrel in May, its highest level since 2014, inflationary pressures worldwide have remained subdued by historical standards.

In the US, economic activity remains in good shape, underpinned by improving consumer and business sentiment, a strong labour market and a recovery in the energy sector. The Federal Reserve (Fed) sanctioned a gradual tightening of monetary policy, raising interest rates three times over the last twelve months. The Fed also began unwinding its asset purchase programme, known as quantitative easing (QE), in October. In December, Congress approved US President Donald Trump's tax reforms which include a cut in the main rate of corporation tax from 35% to 21%.

Global information technology shares staged a vigorous rally over the 12 month period, outperforming broader global equities by a considerable margin. A string of better-than-expected quarterly earnings updates from sector heavyweights such as

Manager's Investment Report continued

Microsoft and Google-parent Alphabet drove the rally, helping the sector to recover from a brief decline in March as a data security scandal hit Facebook. Microchip makers Micron Technology and NVIDIA were among the leading stock-level risers, amid optimism over the demand outlook in areas such as AI and graphics processors for gaming applications. Ongoing demand for cloud-based services also boosted software giants Microsoft and salesforce.com.

Trust Review

Companies held within the Trust are held with weightings generally proportionate to those of the benchmark Index. Therefore, investment activity, other than to raise or invest cash, is only necessary when there are changes to the benchmark Index, or as a result of a corporate action.

At the end of the reporting year, there were 91 companies in the FTSE World Index classified as Technology Hardware & Equipment and a further 78 companies classified as Software & Computer Services. These sectors accounted for approximately 48% and 52% of the Trust's benchmark Index respectively, by market value.

The 10 largest constituents, the largest quoted technology companies in the world, were Apple, Microsoft, Facebook, Alphabet, Intel, Cisco Systems, Taiwan Semiconductor Manufacturing, NVIDIA, Oracle and IBM. Of these companies, which together account for 62% of the value of the Index, only Taiwan Semiconductor Manufacturing (Taiwan) is based outside the US.

The three largest countries by market value in the Index were the US (83.9%), Taiwan (4.2%) and Japan (3.1%).

During the reporting year there were four Index reviews carried out by FTSE. The September 2017 quarterly Index review resulted in seven additions and no deletions. The largest additions were Gartner, CDW and Arista Networks, all in the US. Of the 17 changes to the free share capital of constituents the largest was a decrease in weight for ASML in the Netherlands.

The December 2017 Index review resulted in no additions and no deletions, There were however, 33 changes to the free share capital of constituents with the largest increase being Oracle (US) and the largest decreases being Apple, Micron Technology and IBM (all US).

The March 2018 quarterly Index review resulted in two additions and one deletion. The largest additions were Cadence Design Systems (US) and GlobalWafers (Taiwan). Of the 38 changes to the free share capital of constituents the largest was an increase in weight for ASML in the Netherlands.

The June 2018 quarterly Index review resulted in one addition and no deletions. The addition Amadeus IT Group (Spain) was 0.53% in the Index. Of the 105 changes to the free share capital of constituents the largest was a decrease in weight for Apple (US).

Outside of the review Mobileye N.V. (US) was acquired by Intel (US) in a \$14bn cash deal and deleted from the Index

Outlook

We expect the recent strong economic growth to continue for the time being. However, there are a number of indicators which suggest that the global economy is moving towards the latter stages of the economic cycle; unemployment is low, inflation is starting to rise, the yield curve is flattening and credit spreads are moving wider.

From our perspective, there are three key risks of which to be mindful: that inflation could rise faster than expected, a further strengthened US Dollar which would squeeze other nations and trade wars. On the latter, the existing set of tariffs on steel, aluminium and solar panels are relatively small. However, it is the significant escalation that could cause wider issues. Escalation increases the risk of a more negative financial market reaction and damage to business and consumer confidence. While tariffs on steel and aluminium are less visible to consumers, widespread tariffs will hit high-profile consumer goods such as electronics and clothing. If a full-scale trade war becomes a reality, we see it as inflationary and negative for US, Chinese and global growth. However, this scenario is not part of our base case outlook and we see the current rhetoric from Trump as part of his usual negotiating position to reach a more stable and agreeable outcome.

The Trust remains well positioned to capture performance of the Technology sector.

Statement of Responsibilities

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook published by the FCA, ("the COLL Rules") require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Trust and of the net income and net gains or losses on the property of the Trust for the period.

In preparing the financial statements, the Manager is responsible for:

- selecting suitable accounting policies and then apply them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Trust in accordance with its Trust Deed, the Prospectus and the COLL Rules.

Statement of Responsibilities continued

Statement of the Trustee's Responsibilities

The Depositary in its capacity as Trustee of Legal & General Global Technology Index Trust must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Depositary must ensure that:

- the Trust's cash flows are properly monitored and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- the Trust's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

Report of the Trustee

Report of the Trustee to the Unitholders of the Legal & General Global Technology Index Trust ("the Trust") for the year ended 10 August 2018

The Depositary also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents of the Trust in relation to the investment and borrowing powers applicable to the Trust.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Trust, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Trust, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's income in accordance with the Regulations and the Scheme documents of the Trust; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Trust in accordance with the Regulations and the Scheme documents of the Trust.

Independent Auditor's Report

Independent auditor's report to the Unitholders of Legal & General Global Technology Index Trust ('the Trust')

Opinion

We have audited the financial statements of the Trust for the year ended 10 August 2018 which comprise the Statement of Total Return, the Statement of Changes in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables for the Trust and the accounting policies set out on pages 19 and 20.

In our opinion, the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland, of the financial position of the Trust as at 10 August 2018 and of the net revenue and the net capital gains on the property of the Trust for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to UK Authorised Funds, and the COLL Rules.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Trust in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

Other information

The Manager (Legal & General (Unit Trust Managers) Limited) is responsible for the other information presented in the Annual Manager's Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in Manager's Report for the financial year is consistent with the financial statements.

Independent Auditor's Report continued

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Trust have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's responsibilities

As explained more fully in their statement set out on page 6, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Trust's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ("the COLL Rules") issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

1. Statement of Compliance

The Financial Statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014 (2014 SORP).

2. Summary of Significant Accounting Policies

(a) Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss.

The principal accounting policies which have been applied consistently are set out below.

(b) Functional and Presentation Currency

The functional and presentation currency of the Trust is Sterling.

(c) Recognition of Revenue

Revenue from quoted equities and non-equity shares is recognised net of attributable tax credits when the security is quoted ex-dividend. Revenue from unquoted equity investments is recognised net of attributable tax credits when the dividend is declared.

Overseas revenue received after the deduction of withholding tax is shown gross of taxation, with the taxation consequences shown within the taxation charge.

Special dividends are treated as either revenue or capital depending on the facts of each particular case.

All other revenue is recognised on an accruals basis.

(d) Treatment of Expenses

All expenses (other than those relating to the purchase and sale of investments) are charged against revenue on an accruals basis.

(e) Distribution Policy

The policy is to distribute all available revenue, after deduction of those expenses which are chargeable in calculating the distribution, on an annual basis, in accordance with the COLL.

Fund management fees are deducted from revenue for the purpose of calculating the distribution.

The ordinary element of stock dividends is treated as revenue and forms part of the distribution. In the case of an enhanced stock dividend, the value of the enhancement is treated as capital and does not form part of the distribution.

Distributions which have remained unclaimed by Unitholders for over six years are credited to the capital property of the Trust.

2. Summary of Significant Accounting Policies continued

(f) Basis of Valuation of Investments

All investments are valued at their fair value as at 3pm on 10 August 2018, being the last working day of the accounting year. The fair value for non-derivative securities is bid market price. The fair value for derivative instruments is the cost of closing out the contract on the last working day of the accounting year.

Where values cannot be readily determined, the securities are valued at the Manager's best assessment of their fair and reasonable value.

(g) Taxation

Provision is made for taxation at current rates on the excess of investment revenue over expenses, with relief for overseas taxation taken where appropriate.

Deferred tax is provided for on all timing differences that have originated but not reversed by the balance sheet date, other than those differences that are regarded as permanent. Any liability to deferred tax is provided for at the average rate of tax expected to apply.

(h) Foreign Exchange

Transactions in foreign currencies are translated at the rate of exchange ruling on the date of the transaction. Where applicable, assets and liabilities denominated in foreign currencies are translated into Sterling at the rates of exchange ruling at 3pm on 10 August 2018, being the last working day of the accounting year.

3. Net capital gains

The net capital gains during the year comprise:

6. Taxation

(a) Analysis of taxation charge in year

	10/08/18	10/08/17
	£	£
Overseas tax	473,955	350,998

Deferred tax [note 6(c)]	—	—
Total taxation	<u>473,955</u>	<u>350,998</u>

(b) Factors affecting taxation charge for the year

The current tax charge excludes capital gains and losses for the reason that Authorised Unit Trusts are not subject to Corporation Tax on these items. Current tax differs from taxation assessed on net revenue before taxation as follows:

Net revenue before taxation	<u>2,275,103</u>	<u>1,797,942</u>
Net revenue before taxation multiplied by the applicable rate of Corporation tax of 20% (2017: 20%)	455,021	359,588
Effects of:		
Overseas tax	473,955	350,998
Revenue not subject to taxation	(678,537)	(544,114)
Excess management expenses not utilised	<u>223,516</u>	<u>184,526</u>
Current tax	<u>473,955</u>	<u>350,998</u>

(c) Provision for deferred tax

There is no deferred tax provision in the current or preceding year. At the year end there is a potential deferred tax asset of £894,528 (10 August 2017: £671,012) due to surplus management expenses.

It is unlikely the Trust will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised (10 August 2017: same).

There were no contingent liabilities or outstanding commitments at the balance sheet date (10 August 2017: same).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks

The investments of a Trust in financial securities and derivatives are subject to normal market fluctuations and other risks inherent in investing in such instruments. Legal & General (Unit Trust Managers) Limited (UTM) is the Authorised Fund Manager and has responsibility for ensuring appropriate risk management processes are implemented for each Unit Trust.

The UTM Board has delegated the risk oversight function to the Fund Manager Oversight Committee (FMOC), a committee of the Legal & General Investment Management (Holdings) Limited (LGIMH) Board that meets monthly. The primary objective of the FMOC is to ensure proper oversight of the investment management activities and associated services performed by LGIM, its delegates and other Fund Managers, under the Investment Management Agreement (IMA), on behalf of UTM in its capacity as Authorised Fund Manager. The committee consists of senior members of LGIMH and members of the UTM Board. Other senior staff members are also in attendance, as required by the agenda.

Each Trust has Investment Guidelines, an Investment Objective and Investment Restrictions, against which the fund manager will operate. These are set out in Schedule 1 of the IMA between LGIM and UTM. The Schedule is maintained by each fund manager, reviewed by the LGIM Operational Risk and Compliance Teams and approved senior members of LGIMH on behalf of the UTM board. The Schedule provides the detail needed to determine the risk profile for each fund. Fund managers are not permitted to invest into any new instruments without first gaining approval from UTM.

The Investment Objective and Policy of this Trust is detailed on page 2.

(a) Market Risk arising from other price risk

Market Risk arises mainly from uncertainty about future prices. It represents the potential loss the Trust may suffer through holding market positions in the face of market movements.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar instruments traded in the market.

The assets held by the Trust can be seen in the Portfolio Statement starting on page 9. Movements in the prices of these investments result in movements in the performance of the Trust. The Manager adheres to the investment guidelines established in the Trust Deed, the Prospectus, the COLL and the Trust's IOG, and in this way, monitors and controls the exposure to risk from any type of security, sector or issuer.

At 10 August 2018, if the price of the investments held by the Trust increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £13,552,202 (10 August 2017: £9,891,546).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(b) Interest Rate Risk

Interest Rate Risk is the risk of movements in the value of financial instruments as a result of fluctuations in interest rates.

The Trust's only interest bearing financial instruments were its bank balances and overdraft facilities as disclosed in note 9. Cash is deposited and overdraft facilities utilised on normal commercial terms and earn or bear interest based on LIBOR or its overseas equivalent.

In the event of a change in interest rates, there would be no material impact upon the assets of the Trust.

(c) Foreign Currency Risk

Foreign Currency Risk is the risk of movements in the value of financial instruments as a result of fluctuations in exchange rates. This risk may be managed by the use of forward currency contracts or currency futures as necessary.

Forward currency contracts were not utilised during the current or the preceding year.

At 10 August 2018, if the value of Sterling increased or decreased by 1% against all currencies, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £2,725,252 (10 August 2017: £1,982,479).

The direct foreign currency profile of the Trust's net assets at the balance sheet date was:

10/08/18 Currency	Net foreign currency assets		Total £'000

(d) Credit Risk

Credit Risk is the risk of suffering financial loss as a result of a counterparty to a financial transaction being unable to fulfil their financial obligations as they fall due.

This risk is managed by appraising the credit profile of financial instruments and issuers in line with the Trust's investment objective and policy.

(e) Liquidity Risk

Liquidity Risk relates to the capacity to meet liabilities as they fall due. The primary source of this risk to the Trust is the liability to Unitholders for any cancellation of units.

This risk is minimised by holding a large proportion of readily realisable assets, cash balances and via access to overdraft facilities.

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(f) Fair Value

The fair value of a financial instrument is the amount for which it could be exchanged between knowledgeable, willing parties in an arm's length transaction. There is no material difference between the value of the financial assets and liabilities, as shown in the financial statements, and their fair value.

The Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Management Association in May 2014 requires the classification of the Trust's financial instruments held at the year end into a 3 tiered fair value hierarchy. The 3 tiers of the hierarchy and the classification of the Trust's financial instruments as at the balance sheet date were:

10/08/18	Assets	Liabilities
Basis of Valuation	£	£
Level 1 - Quoted Prices	271,044,030	—

Level 1

The unadjusted quoted price in an active market for assets or liabilities that the entity can access at the measurement date.

A list of unit classes in issue and the fund management fee on each unit class can be found on page 38. The net asset value per unit of each unit class and the number of units in each class are given in the comparative tables on pages 34 to 36. The distributions per unit class are given in the distribution table on page 32. All classes have the same rights on winding up.

Notes to the Financial Statements continued

15. Ultimate controlling party and related party transactions

The Manager is regarded as a related party to the Trust because it provides key management personnel services to the Trust. The ultimate controlling party of the Manager is Legal & General Group Plc. Subsidiaries of Legal & General Group Plc are also considered related parties to the Trust.

Legal & General (Unit Trust Managers) Limited acts as the principal on all the transactions of the units in the Trust. The aggregated monies received through creations or paid on cancellations are disclosed in the statement of change in net assets attributable to unitholders.

Equalisation amounts relating to creations and cancellations of units are shown within note 7. Fees received by the Authorised Fund Manager from the Trust plus any rebates paid by the Authorised Fund Manager to the Trust are shown within notes 3, 4 and 5 as applicable. Any outstanding fees, amounts outstanding on creations or cancellations of units in the Trust, or rebates receivable by the Trust from the Manager are shown within notes 8 and 10 as applicable.

At the year end, the Manager and its associates held 0.00% (0.00% as at 10 August 2017) of the Trust's units in issue.

16. Post balance sheet market movements

As at the close of business on the balance sheet date the Net Asset Value per R-Class accumulation unit was 48.43p. The Net Asset Value per R-Class accumulation unit for the Trust as at 3pm on 26 September 2018 was 48.09p. This represents a decrease of 0.70% from the year end value.

Distribution Table

Distribution Table for the year ended 10 August 2018

Group 1: units purchased prior to a distribution period.

Group 2: units purchased during a distribution period.

Equalisation is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to the holders of these units as a return of capital. As capital it is not liable to Income Tax but must be deducted from the cost of units for Capital Gains Tax purposes.

Trust Information

The Comparative Tables on pages 34 to 36 give the performance of each active share class in the Trust.

The 'Return after charges' disclosed in the Comparative Tables is calculated as the return after operating charges per unit divided by the opening net asset value per unit. It differs from the Trust's performance disclosed in the Manager's report, which is calculated based on the latest published price.

Portfolio transaction costs are incurred when investments are bought or sold by a fund in order to achieve the investment objective. These transaction costs affect an investor in different ways depending on whether they are joining, leaving or continuing with their investment in the Trust.

Direct transaction costs include broker commission and taxes. Broker commission includes the fee paid to a broker to execute the trades and research costs.

In addition, there are indirect portfolio transaction costs arising from the 'dealing spread' – the difference between the buying and selling prices of underlying investments in the portfolio. Unlike shares whereby broker commissions and stamp duty are paid by a fund on each transaction, other types of investments (such as bonds, money instruments, derivatives, collective investment schemes) do not have separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and money market sentiment.

Risk and Reward Profile (unaudited)

- This risk and reward profile is based on historical data which may not be a reliable indication of the Trust's risk and reward category in the future.
- The category number highlighted above reflects the rate at which the Trust's unit price has moved up and down in the past. If the Trust has less than five years' track record, the number also reflects the rate at which the Index the Trust tracks has moved up and down in the past. Higher numbers mean the potential reward could be greater, but this comes with increased risk of losing money.
- The Trust is in category six because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- The Trust's category is not guaranteed to remain the same and may change over time.
- Even a trust in the lowest category is not a risk free investment.

Information on Tracking Error

The 'Tracking Error' of a Trust is the measure of the volatility of the differences between the return of the Trust and the return of the benchmark Index. It provides an indication of how closely the Trust is tracking the performance of the benchmark Index after considering things such as Trust charges and taxation.

Using monthly returns, over the review year, the annualised Tracking Error of the Trust is 0.51%, whilst over the last three years to the end of August 2018, the annualised Tracking Error of the Trust is 0.45%. These Tracking Errors are within the anticipated Tracking Error levels set out in the Trust's Prospectus of +/-0.75% per annum.

Dual Pricing Arrangement

The Manager's fixed dual pricing arrangement has a set spread to account for the costs of transacting in a particular Trust. Where the Manager operates a box through which unit subscriptions and unit redemptions are netted into a single trade instruction to the Trustee, the netting reduces the actual transaction costs and this generates a revenue to the Manager. The revenue generated from this activity is calculated on a monthly basis and returned to the Trust in the form of a payment from the Manager. This provides an enhanced return to the Trust, though the size of any return will be dependent on the size of subscriptions and redemptions.
