Manager's Investment Report

Investment Objective and Policy

The objective of the Trust is to provide growth by tracking the performance of the FTSE World -Technology Index, the "Benchmark Index". This objective is after the deduction of charges and taxation.

The Benchmark Index is comprised of shares in companies from the developed and advanced emerging markets that are engaged in information technology and are included in the FTSE World Index.

The Trust is a Replicating Trust as it seeks to replicate as closely as possible the constituents of the Benchmark Index by holding all, or substantially all, of the assets comprising the Benchmark Index in similar proportions to their weightings in the Benchmark Index. The Trust will have at least 90% exposure to assets that are included in the Benchmark Index.

The Trust may also invest in shares in companies which are reasonably expected to become part of the Benchmark Index in the near future or are an alternative to a constituent of the Benchmark Index and collective investment schemes, including those managed or operated by the Manager or an associate of the Manager as well as money market instruments (such as treasury bills), cash and permitted deposits.

The Trust may only use derivatives for Efficient Portfolio Management purposes.

Manager's Investment Report

During the year under review, the bid price of the Trust's R-Class accumulation units rose by 34.80%. FTSE, the Index compiler, calculates the benchmark Index at the end of the business day using closing prices, whereas the Trust is valued using prevailing prices at 3pm. Therefore, for tracking purposes the Trust has been revalued using closing prices and foreign exchange rates. On this basis, over the review year, the Trust rose by 34.73% on a capital only basis, compared to the Sterling capital return of the FTSE World Technology Index which rose by 35.21% (Source: Bloomberg), producing a tracking difference of -0.48%.

Past performance is not a guide to future performance.

The value of investments and any income from them may go down as well as up.

Exchange rate changes may cause the value of any overseas investments to rise or fall.

The FTSE World Index is calculated by FTSE International Limited ("FTSE"). FTSE does not sponsor, endorse or promote this product.

Market/Economic Review

Global equity indices were broadly unchanged over the review year, recovering from a turbulent opening quarter of 2020 when COVID-19 spread worldwide and countries implemented lockdown measures closing industries and businesses, while imposing tight restrictions on citizens' movements. Markets plunged in late February and early March as fears grew of a severe global economic recession, although equities subsequently rebounded during the second quarter after central banks and governments worldwide announced an extensive range of monetary and fiscal stimulus packages to underpin the global economy.

IT stocks significantly outperformed relative to the largely flat returns from global equities. Having outperformed around the turn of the calendar year amid hopes that easing trade tensions would bolster world economic activity, IT stocks slid alongside their peers as COVID-19 impacted on major Western economies. However, IT equities roared back from March's lows, driven by impressive updates from leading companies and confidence that demand would remain strong as COVID-19 alters longer-term working patterns. Chipmakers AMD and NVIDIA soared on robust trading updates, while Apple, Microsoft and Citrix Systems climbed amid buoyant sales of products and services to facilitate agile working.

Trust Review

Companies held within the Trust are held with weightings generally proportionate to those of the benchmark Index. Therefore, investment activity, other than to raise or invest cash, is only necessary when there are changes to the benchmark Index, or as a result of a corporate action.

The 10 largest constituents, the largest quoted technology companies in the world, were Apple, Microsoft, Alphabet, Facebook, Taiwan Semiconductor Manufacturing, NVIDIA, Samsung Electronics, Adobe Systems, Intel, Cisco Systems. Of these companies, which together account for 62% of the value of the Index. Only Samsung Electronics (Korea) and Taiwan Semiconductor Manufacturing (Taiwan) are based outside the US.

The three largest countries by market value in the Index were the US (81%), Taiwan (4.7%) and Korea (3.5%)

The September 2019 Index review resulted in nine additions and one deletion. There were 38 changes to the free share capital of constituents with the largest increases being ASML, Yandex and Naspers and the largest decreases being Apple, Cisco Systems and Oracle. The two-way Index turnover was 8.04%.

The December 2019 Index review no additions and no deletions. There were 42 changes to the free share capital of constituents with the largest increases being salesforce.com, Advanced Micro Devices and Atlassian and the largest decreases being Apple, Oracle and NXP Semiconductors. The two-way Index turnover was 1.61%.

The March 2020 Index review 13 additions and no deletions. There were 25 changes to the free share capital of constituents with the largest increases being salesforce.com, Workday and Atlassian and the largest decreases being Apple, Intel and Oracle. The two-way Index turnover was 2.78%.

The June 2020 Index review four additions and two deletions. There were 132 changes to the free share capital of constituents with the largest increases being SAP, Advanced Micro Devices and DocuSign and the largest decreases being Microsoft, Apple and Alphabet 'C'. The two-way Index turnover was 2.79%.

Outlook

We know from experience that sudden bursts of risk-on sentiment rarely endure during periods of severe economic disruption and weak company fundamentals. We expect central banks to keep yields low as they seek to prop up economies. Over the medium term, we expect yields to rise as the world returns to 'normality'. While we expect defaults to pick up, we expect support from policymakers to help cushion bond-holders. We continue to be cautious on risk assets including equities in the short-term given the uncertainty over the economic impact of COVID-19 and the knock-off effect on earnings. However, from a medium-term perspective, valuations have improved significantly in recent times.

The Trust remains well positioned to capture the performance of the Index.

Important note from the Manager

Since January 2020, global financial markets have been affected by the COVID-19 coronavirus. The impact on the Company will take longer to assess; however, the Company has enacted its business continuity plans, with a large number of staff working remotely. Our technology and IT infrastructure supports large scale remote working, with our Investment Management Teams able to work in a 'business as usual' manner. We remain in regular contact with all key suppliers and we continue to monitor this situation closely.

The virus has caused major uncertainty and disruption to businesses and everyday life. Financial markets have reacted sharply to this news, with concerns regarding the economic impact this may have on a global scale. The long-term impact on the global economy and markets will depend upon the overall scale and the duration of the outbreak, as well as on the actions taken by governments and central banks.

Statement of Responsibilities

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook published by the FCA, ("the COLL Rules") require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Trust and of the net income and net gains or losses on the property of the Trust for the period.

In preparing the financial statements, the Manager is responsible for:

- selecting suitable accounting policies and then applying them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Trust in accordance with its Trust Deed, the Prospectus and the COLL Rules.

Statement of Responsibilities continued

Statement of the Trustee's Responsibilities

The Depositary in its capacity as Trustee of Legal & General Global Technology Index Trust must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook ("COLL"), the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Depositary must ensure that:

- the Trust's cash flows are properly monitored and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- the Trust's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

Report of the Trustee

Report of the Trustee to the Unitholders of the Legal & General Global Technology Index Trust ("the Trust") for the year ended 10 August 2020

The Depositary also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents of the Trust in relation to the investment and borrowing powers applicable to the Trust.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Trust, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Trust, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's income in accordance with the Regulations and the Scheme documents of the Trust; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Trust in accordance with the Regulations and the Scheme documents of the Trust.

Independent Auditor's Report

Independent auditor's report to the Unitholders of Legal & General Global Technology Index Trust ('the Trust')

Opinion

We have audited the financial statements of the Trust for the year ended 10 August 2020 which comprise the Statement of Total Return, the Statement of Change in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables for the Trust and the accounting policies set out on pages 20 to 21.

In our opinion, the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland, of the financial position of the Trust as at 10 August 2020 and of the net revenue and the net capital gains on the property of the Trust for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to UK Authorised Funds, and the COLL Rules.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Trust in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The Manager has prepared the financial statements on the going concern basis as they do not intend to liquidate the Trust to cease their operations, and as they have concluded that the Trust's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements. In our evaluation of the Manager's conclusions, we considered the inherent risks to the Trust's business model and analysed how those risks might affect the Trust's financial resources or ability to continue operations over the going concern period. We have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Trust will continue in operation.

Independent Auditor's Report continued

Other information

The Manager (Legal & General (Unit Trust Managers) Limited) is responsible for the other information presented in the Annual Manager's Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in Manager's Report for the financial year is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Trust have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's responsibilities

As explained more fully in their statement set out on page 6, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

Independent Auditor's Report continued

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Trust's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ('the COLL Rules') issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

1. Statement of Compliance

The Financial Statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014 (2014 SORP).

2. Summary of Significant Accounting Policies

(a) Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss. In making this assessment, and in response to COVID-19, the Manager has considered, amongst other things, factors such as Trust size, cash flows through the Trust and Trust liquidity.

The principal accounting policies which have been applied consistently are set out below.

(b) Functional and Presentation Currency

The functional and presentation currency of the Trust is Sterling.

(c) Recognition of Revenue

Revenue from quoted equities and non-equity shares is recognised net of attributable tax credits when the security is quoted ex-dividend. Revenue from unquoted equity investments is recognised net of attributable tax credits when the dividend is declared.

Overseas revenue received after the deduction of withholding tax is shown gross of taxation, with the taxation consequences shown within the taxation charge.

Special dividends are treated as either revenue or capital depending on the facts of each particular case.

All other revenue is recognised on an accruals basis.

(d) Treatment of Expenses

All expenses (other than those relating to the purchase and sale of investments) are charged against revenue on an accruals basis.

(e) Distribution Policy

The policy is to distribute all available revenue, after deduction of those expenses which are chargeable in calculating the distribution, on an annual basis, in accordance with the COLL.

Fund management fees are deducted from revenue for the purpose of calculating the distribution.

Distributions which have remained unclaimed by Unitholders for over six years are credited to the capital property of the Trust.

Notes to the Financial Statements continued

2. Summary of Significant Accounting Policies continued

(f) Basis of Valuation of Investments

All investments are valued at their fair value as at 3pm on 10 August 2020, being the last working day of the accounting year. The fair value for non-derivative securities is bid market price.

Where values cannot be readily determined, the securities are valued at the Manager's best assessment of their fair and reasonable value.

(g) Taxation

Provision is made for taxation at current rates on the excess of investment revenue over expenses, with relief for overseas taxation taken where appropriate.

Deferred tax is provided for on all timing differences that have originated but not reversed by the balance sheet date, other than those differences that are regarded as permanent. Any liability to deferred tax is provided for at the average rate of tax expected to apply.

(h) Foreign Exchange

Transactions in foreign currencies are translated at the rate of exchange ruling on the date of the transaction. Where applicable, assets and liabilities denominated in foreign currencies are translated into Sterling at the rates of exchange ruling at 3pm on 10 August 2020, being the last working day of the accounting year.

3. Net capital gains

Audit fees of £9,433 plus VAT of £1,887 have been borne by the Manager out of its fund management fee. In the prior year, the total audit fee was £9,167 plus VAT of £1,833.

Notes to the Financial Statements continued

6. Taxation

(a) Analysis of taxation charge in year

	10/08/20	10/08/19
	£	£
Overseas tax	1,005,398	722,388
Current tax [note 6(b)]	1,005,398	722,388
Deferred tax [note 6(c)]	—	—
Total taxation	<u>1,005,398</u>	<u>722,388</u>

(b) Factors affecting taxation charge for the year

The current tax charge excludes capital gains and losses for the reason that Authorised Unit Trusts are not subject to Corporation Tax on these items. Current tax differs from taxation assessed on net revenue before taxation as follows:

Net revenue before taxation	<u>4,898,084</u>	<u>3,516,060</u>
Net revenue before taxation multiplied by the applicable rate of Corporation tax of 20% (2019: 20%)	979,617	703,212
Effects of:		
Overseas tax	1,005,398	722,388
Revenue not subject to taxation	(1,423,635)	(962,180)
Excess management expenses not utilised	<u>444,018</u>	<u>258,968</u>
Current tax	<u>1,005,398</u>	<u>722,388</u>

(c) Provision for deferred tax

There is no deferred tax provision in the current or preceding year. At the year end there is a potential deferred tax asset of £1,597,514 (10 August 2019: £1,153,496) due to surplus management expenses.

It is unlikely the Trust will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised (10 August 2019: same).

12. Financial Instruments and Associated Risks

The investments of a Trust in financial securities and derivatives are subject to normal market fluctuations and other risks inherent in investing in such instruments. Legal & General (Unit Trust Managers) Limited (UTM) is the Authorised Fund Manager and has responsibility for ensuring appropriate risk management processes are implemented for each Unit Trust.

The UTM Board has delegated the risk oversight function to the Fund Manager Oversight Committee (FMOC), a committee of the Legal & General Investment Management (Holdings) Limited (LGIMH) Board that meets monthly. The primary objective of the FMOC is to ensure proper oversight of the investment management activities and associated services performed by LGIM, its delegates and other Fund Managers, under the Investment Management Agreement (IMA), on behalf of UTM in its capacity as Authorised Fund Manager. The committee consists of senior members of LGIMH and members of the UTM Board. Other senior staff members are also in attendance, as required by the agenda.

Each Trust has Investment Guidelines, an Investment Objective and Investment Restrictions, against which the fund manager will operate. These are set out in Schedule 1 of the IMA between LGIM and UTM. The Schedule is maintained by each fund manager, reviewed by the LGIM Operational Risk and Compliance Teams and approved senior members of LGIMH on behalf of the UTM board. The Schedule provides the detail needed to determine the risk profile for each fund. Fund managers are not permitted to invest into any new instruments without first gaining approval from UTM.

The Investment Objective and Policy of this Trust is detailed on page 2.

(a) Market Risk arising from other price risk

Market Risk arises mainly from uncertainty about future prices. It represents the potential loss the Trust may suffer through holding market positions in the face of market movements.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar instruments traded in the market.

The assets held by the Trust can be seen in the Portfolio Statement starting on page 9. Movements in the prices of these investments result in movements in the performance of the Trust. The Manager adheres to the investment guidelines established in the Trust Deed, the Prospectus, the COLL and the Trust's IOG, and in this way, monitors and controls the exposure to risk from any type of security, sector or issuer.

At 10 August 2020, if the price of the investments held by the Trust increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £44,367,994 (10 August 2019: £19,642,428).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(b) Interest Rate Risk

Interest Rate Risk is the risk of movements in the value of financial instruments as a result of fluctuations in interest rates.

The Trust's only interest bearing financial instruments were its bank balances and overdraft facilities as disclosed in note 9. Cash is deposited and overdraft facilities utilised on normal commercial terms and earn or bear interest based on LIBOR or its overseas equivalent.

In the event of a change in interest rates, there would be no material impact upon the assets of the Trust.

(c) Foreign Currency Risk

Foreign Currency Risk is the risk of movements in the value of financial instruments as a result of fluctuations in exchange rates. This risk may be managed by the use of forward currency contracts or currency futures as necessary.

Forward currency contracts were utilised during the current and the preceding year.

At 10 August 2020, if the value of Sterling increased or decreased by 1% against all currencies, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £8,868,940 (10 August 2019: £3,923,958).

The direct foreign currency profile of the Trust's net assets at the balance sheet date was:

(d) Credit Risk

Credit Risk is the risk of suffering financial loss as a result of a counterparty to a financial transaction being unable to fulfil their financial obligations as they fall due.

This risk is managed by appraising the credit profile of financial instruments and issuers in line with the Trust's investment objective and policy.

(e) Liquidity Risk

Liquidity Risk relates to the capacity to meet liabilities as they fall due. The primary source of this risk to the Trust is the liability to Unitholders for any cancellation of units.

This risk is minimised by holding a large proportion of readily realisable assets, cash balances and via access to overdraft facilities.

12. Financial Instruments and Associated Risks continued

(f) Fair Value

The fair value of a financial instrument is the amount for which it could be exchanged between knowledgeable, willing parties in an arm's length transaction. There is no material difference between the value of the financial assets and liabilities, as shown in the financial statements, and their fair value.

The Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Association in May 2014 requires the classification of the Trust's financial instruments held at the year end into a 3 tiered fair value hierarchy. The 3 tiers of the hierarchy and the classification of the Trust's financial instruments as at the balance sheet date were:

10/08/20	Assets	Liabilities
Basis of Valuation	£	£
Level 1 - Quoted Prices	887,359,874	—
Level 2 - Observable Market Data	—	—
Level 3 - Unobservable Data	—	—
Total	887,359,874	—

10/08/19	Assets	Liabilities

Level 2 - Observable Market Data	—	—
Level 3 - Unobservable Data	—	—
Total	392,848,554	—

Level 1

The unadjusted quoted price in an active market for assets or liabilities that the entity can access at the measurement date.

Level 2

Valuation techniques using observable inputs other than quoted prices within Level 1.

Level 3

Valuation techniques using unobservable inputs.

15. Ultimate controlling party and related party transactions

The Manager is regarded as a related party to the Trust because it provides key management personnel services to the Trust. The ultimate controlling party of the Manager is Legal & General Group Plc. Subsidiaries of Legal & General Group Plc are also considered related parties to the Trust.

Legal & General (Unit Trust Managers) Limited acts as the principal on all the transactions of the units in the Trust. The aggregated monies received through creations or paid on cancellations are disclosed in the statement of change in net assets attributable to unitholders.

Equalisation amounts relating to creations and cancellations of units are shown within note 7. Fees received by the Authorised Fund Manager from the Trust plus any rebates paid by the Authorised Fund Manager to the Trust are shown within notes 3, 4 and 5 as applicable. Any outstanding fees, amounts outstanding on creations or cancellations of units in the Trust, or rebates receivable by the Trust from the Manager are shown within notes 8 and 10 as applicable.

At the year end, the Manager and its associates held 0.00% (0.00% as at 10 August 2019) of the Trust's units in issue.

16. Post balance sheet market movements

As at the close of business on the balance sheet date the Net Asset Value per R-Class accumulation unit was 72.11p. The Net Asset Value per R-Class accumulation unit for the Trust as at 3pm on 6 October 2020 was 75.10p. This represents an increase of 4.15% from the year end value.

Distribution Table

Distribution Table for the year ended 10 August 2020

Group 1: units purchased prior to a distribution period.

Group 2: units purchased during a distribution period.

Equalisation is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to the holders of these units as a return of capital. As capital it is not liable to Income Tax but must be deducted from the cost of units for Capital Gains Tax purposes.

Trust Information

The Comparative Tables on pages 35 to 39 give the performance of each active unit class in the Trust.

The 'Return after charges' disclosed in the Comparative Tables is calculated as the return after operating charges per unit divided by the opening net asset value per unit. It differs from the Trust's performance disclosed in the Manager's report, which is calculated based on the latest published price.

Portfolio transaction costs are incurred when investments are bought or sold by a fund in order to achieve the investment objective. These transaction costs affect an investor in different ways depending on whether they are joining, leaving or continuing with their investment in the Trust.

Direct transaction costs include broker commission and taxes. Broker commission includes the fee paid to a broker to execute the trades and research costs.

In addition, there are indirect portfolio transaction costs arising from the 'dealing spread' – the difference between the buying and selling prices of underlying investments in the portfolio. Unlike shares whereby broker commissions and stamp duty are paid by a fund on each transaction, other types of investments (such as bonds, money instruments, derivatives, collective investment schemes) do not have separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and money market sentiment.

Risk and Reward Profile (unaudited)

- The Risk and Reward Indicator table demonstrates where the Trust ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Trust. The shaded area in the table above shows the Trust's ranking on the Risk and Reward Indicator.
- The Trust is in category six because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- Even a trust in the lowest category is not a risk free investment.

Information on Tracking Error

The 'Tracking Error' of a Trust is the measure of the volatility of the differences between the return of the Trust and the return of the benchmark Index. It provides an indication of how closely the Trust is tracking the performance of the benchmark Index after considering things such as Trust charges and taxation.

Using monthly returns, over the review year, the annualised Tracking Error of the Trust is 0.33%, whilst over the last three years to the end of July 2020, the annualised Tracking Error of the Trust is 0.38%. These Tracking Errors are within the anticipated Tracking Error levels set out in the Trust's Prospectus of +/-0.75% per annum.

Dual Pricing Arrangement

The Manager's fixed dual pricing arrangement has a set spread to account for the costs of transacting in a particular Trust. Where the Manager operates a box through which unit subscriptions and unit redemptions are netted into a single trade instruction to the Trustee, the netting reduces the actual transaction costs and this generates a revenue to the Manager. The revenue generated from this activity is calculated on a monthly basis and returned to the Trust in the form of a payment from the Manager. This provides an enhanced return to the Trust, though the size of any return will be dependent on the size of subscriptions and redemptions.

Remuneration Disclosure

In accordance with the Undertakings for collective investment in transferable securities (UCITs) Directive, often referred to as the UCITs V Directive, the Legal & General Global Technology Index Trust, as a UCITs Scheme, is required to disclose the aggregate remuneration paid by the UCITs Manager and by the UCITs Scheme to Identified Staff, together with the number of beneficiaries, and, where relevant, performance fees paid by the UCITs Scheme. The aggregate amount of remuneration must be broken down by category of employees or other staff members and be split into fixed and variable remuneration.

The following provides information on the remuneration of persons whose professional activities have a material impact on the management company and the funds we manage as at 31 December 2019:
