Legal & General Future World Climate Change Equity Factors Index Fund Class C Accumulation - ISIN: GB00BF41Q502

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to provide a combination of growth and income by tracking the performance of the FTSE All-World ex CW Climate Balanced Factor Index, the "Benchmark Index". This objective is after the deduction of charges and taxation.
 - The Fund invests almost exclusively in the shares of companies that make up the Benchmark Index. The Benchmark Index consists of a sub-set of shares of the FTSE All-World Index, excluding controversial weapons companies.
 - The Benchmark Index is alternatively weighted to give greater weight to companies that score well against four selected stock factors: value, quality, low volatility and small size. The Benchmark Index also gives greater weight to companies that meet positive carbon and environmental criteria. This means the Fund will invest more in companies that meet these criteria, and less in companies that do not.
 - The Benchmark Index methodology is designed to reflect the performance of a global and diversified basket of securities where their weights are varied to (i) achieve balanced exposures to Value, Quality, Low Volatility and Size factors and (ii) to account for risks and opportunities associated with climate change.
 - The Manager may exclude companies from the Fund which do not meet the Manager's "Climate Impact Pledge" to encourage strong governance and sustainable strategies. The number of companies excluded will be managed to avoid tracking error.
 - The Fund seeks to replicate as closely as possible the constituents of the Benchmark Index. The Fund will have at least 90% exposure to assets that make up the Benchmark Index.
 - The Fund may also invest in shares in companies which are reasonably expected to become part of the Benchmark Index in the near future or are an alternative to a constituent of the Benchmark Index, money market instruments (including treasury bills), cash, deposits, and collective investment schemes including those managed or operated by the Manager or an associate of the Manager.
 - The Fund may use derivatives (contracts which have a value linked to the price of another asset) for efficient portfolio management purposes to:
 - reduce risk or cost; or
 - generate additional capital or income with no, or an acceptably low, level of risk.
 - An overview of the Benchmark Index is available on FTSE's website: <http://www.ftse.com/products/downloads/climate-balanced-factor-overview.pdf>
 - A summary of the manager's Climate Impact Pledge is available at: <http://www.lgim.com/climate-impact-pledge>
- Other information:**
- The Fund is passively managed as it tracks the Benchmark Index.
 - Your units will be accumulation units. Income from the Fund's investments (dividends) will be reinvested back into the value of your units.
 - You can buy or sell units in this Fund on any business day. You need to contact us with your instruction before 3.00pm. This is the time we calculate unit prices for this Fund. If you contact us after 3.00pm, the units will be bought or sold at the next business day's price.
 - The Fund's base currency is denominated in sterling (British pounds).
 - This Fund may be suitable for investors looking for a combination of growth and income by tracking the shares in companies that score high in value, quality, low volatility and size factors whilst incorporating climate change considerations as represented by the Benchmark Index.
 - Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within five years.
 - This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
 - If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

RISK AND REWARD PROFILE

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
 - The Fund is in category 5 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
 - Even a fund in the lowest category is not a risk free investment.
 - The value of your investment may fall as well as rise and is not guaranteed. You might get back less than you invest.
- Further information on the risks of investing in this fund is contained in the Prospectus available at www.legalandgeneral.com/reports.
- The risk and reward indicator may not take account of the following risks of investing in the Fund:
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.

- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund may invest in countries where investment markets are considered to be less developed. This means that investments are generally riskier than those in developed markets because they: (i) may not be as well regulated; (ii) may be more difficult to buy and sell; (iii) may have less reliable arrangements for the safekeeping of investments; or (iv) may be more exposed to political and taxation uncertainties. The value of the Fund can go up or down more often and by larger amounts than funds that invest in developed countries, especially in the short-term.
- The Fund invests in smaller companies. Investments in smaller companies tend to be riskier than investments in larger companies because they can: (i) be harder to buy and sell; or (ii) go up and down in value more often and by larger amounts, especially in the short-term.
- In times of market uncertainty or if an exceptional amount of withdrawals are requested it may become less easy for the Fund to sell investments and the Manager may defer withdrawals, or suspend dealing. The Manager can only delay paying out if it is in the interests of all investors and with the permission of the Fund trustee or depository.
- Where companies in the Index are excluded from the Fund as a result of the Climate Impact Pledge, this may affect the ability of the manager to closely track the performance of the Index.
- The Fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested.	
The price for buying and selling units is subject to a Dilution Adjustment See opposite.	
Charges taken from the fund over a year	
Ongoing charge	0.23%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- There are no entry or exit charges.
 - The ongoing charges figure is based on the latest available expenses at January 2022. This figure may vary from year to year.
 - This Fund's ongoing charges include any charges made by any other funds it may invest in. They exclude portfolio transaction costs.
 - The ongoing charges are taken from the income of the Fund.
- Other costs:**
- **Dilution Adjustment:** on any day, the prices for buying or selling units in this Fund are the same. The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'. This can vary but as an example for this Fund we estimate 0.13% for purchases and 0.09% for sales at 02 February 2022. The amount of the dilution adjustment may differ in future.
 - For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at legalandgeneral.com/chargesandfees.

PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures for the Fund take into account the ongoing charges and assume income (after any tax) is reinvested.
- The performance has been calculated in Sterling (British Pounds).
- The Fund will not replicate the performance of the Benchmark Index perfectly due to the expenses, tax and transaction costs incurred by the Fund, which are not included in the Benchmark Index.
- The annual return is for a 12 month period ending 31 December.
- The Fund launched in 2018.
- This unit class launched in 2018.
- **In November 2021, the Benchmark index converted from a close of business valuation to a 3:00p.m. valuation. Historic performance of the Benchmark index has been simulated by the Index provider and such data is used for the purposes of demonstrating historic performance in the "Past Performance" table.**
